

## **Draeger Medical, Inc. - Software License Schedule**

**1. DEFINITIONS:** The following definitions apply to this Draeger Medical, Inc. - Software License Schedule.

“**Agreement**” shall mean (i) any quotation, order, proposal and/or other agreement for the purchase of products and/or services from Draeger Medical, Inc., including without limitation the Draeger Medical, Inc. - Terms and Conditions of Sale and applicable schedules; and/or (ii) any agreement describing the software licensed herein and the specific system for which the license is issued, to which this Software License Schedule is attached.

“**Documentation**” shall mean the materials related to the Software, in text or graphic form, on machine readable or printed media, which are provided by Licensor to Licensee.

“**Licensee**” shall mean the end-user to whom Licensor, directly or indirectly, provides Software or Documentation for its internal use under the Agreement.

“**Licensor**” shall mean Draeger Medical, Inc.

“**Software**” shall mean the software described in the attached Agreement, including the following as contained therein: (i) software programs (as such term is conventionally understood); and (ii) databases consisting of systemized collections of data to be used or referenced directly or indirectly by a computer. Notwithstanding the foregoing, “Software” does not include “firmware”, as such term is conventionally understood. Software and Documentation includes Third Party Software and Documentation.

“**Third Party Software and Documentation**” shall mean software programs and databases described in the attached Agreement and provided by Licensor to Licensee, and licensed directly to Licensee by Licensor’s supplier under a separate end-user license agreement

“**Updates**” shall mean bug fixes and/or minor enhancements to existing features and functionality. Updates include support for new device data protocols and changes to facilitate compliance with government regulations and safety guidelines.

“**Upgrades**” shall mean new features or enhancements that have been added to existing functionality.

**2. SCOPE:** The following terms and conditions shall apply to all Software and Documentation provided by Licensor to Licensee under the Agreement (whether included with other products listed in the Agreement or listed separately in the Agreement), together with any Updates or Upgrades thereto which Licensor may provide to Licensee, and all copies thereof. Notwithstanding the foregoing, Licensee understands and agrees that Licensee will be bound by the terms of the license agreement provided by Licensor’s supplier as a condition of using the Third Party Software or Documentation. In no event shall the warranties or other obligations of Licensor with respect to Third Party Software or Documentation exceed those set forth in this Schedule. Except as otherwise expressly set forth herein, this Schedule shall be subject to the liability limitations and exclusions and other terms and conditions set forth in the Agreement. To the extent any terms and conditions set forth herein are in conflict with the terms and conditions of the Agreement, the terms and conditions of this Exhibit shall take precedence.

**3. SOFTWARE AND DOCUMENTATION LICENSE:** Subject to the payment of any applicable periodic license or other fee(s), whether stated separately or included in the purchase price of another product, and to Licensee’s acceptance of all of the obligations set forth herein and to the fulfillment of those obligations, Licensor or, if applicable, its licensor or supplier, hereby grants to Licensee a nonexclusive and nontransferable limited license to use the Software provided by Licensor under the Agreement solely for Licensee’s own use and to use the Documentation in support of Licensee’s authorized use of the Software in accordance with the instructions set forth in the user’s manual, and for no other purpose whatsoever. For the avoidance of doubt, Licensee expressly agrees that Licensee shall not sublicense, rent, timeshare, or act as a service bureau with respect to the Licensed Software and Documentation. Unless otherwise set forth herein or in the Agreement, or in an attachment hereto, a separate license is required for each control unit or computer on which the Software is to be used. Licensee may make one copy of the Software licensed hereunder for backup and archival purposes only as is necessary to support Licensee’s own authorized use of the Software, provided that Licensee includes on or in all copies (in any form) all copyright, trade secret or other proprietary notices contained on or in the Software as provided by Licensor. Additional copies of the Documentation may be licensed from Licensor at its then applicable charges. Licensee may make the Software and Documentation (including any copies) available only to its employees and other persons on Licensee’s premises who have executed appropriate confidentiality agreements and to whom such disclosure is necessary to enable Licensee to use the Software or Documentation within the scope of the license provided in this Schedule.

**4. PROPRIETARY PROTECTION AND CONFIDENTIALITY:** Ownership of and title to the Software and Documentation and all copies, in any form, licensed under this Schedule are and will remain in Licensor at all times. Licensee shall not (i) remove any copyright, trade secret or other proprietary right notices contained on or in the Software or Documentation as provided by Licensor, (ii) reproduce (except as otherwise specifically authorized) or modify any Software or Documentation or copy thereof, (iii) reverse assemble, reverse engineer or decompile any Software, or copy thereof, in whole or in part (except and only to the extent that such activity is for purposes of interoperability and is expressly permitted by applicable law notwithstanding this limitation), (iv) sell, transfer or otherwise make available to others the Software or Documentation, or any copy thereof, or (v) apply any techniques to derive any trade secrets embodied in the Software or Documentation. Licensee shall secure and protect the Software and Documentation and copies thereof from disclosure and shall take such actions with its employees and other persons who are permitted access to the Software or Documentation or copies as may be necessary to satisfy Licensee’s obligations hereunder. Prior to disposing of any computer medium, computer memory or data storage apparatus, Licensee shall ensure that all copies of Software and Documentation have been erased therefrom or otherwise destroyed. In the event that Licensee

becomes aware that any Software or Documentation or copies are being used in a manner not permitted by the license, Licensee shall immediately notify Licensor in writing of such fact and if the person or persons so using the Software or Documentation are employed or otherwise subject to Licensee's direction and control, Licensee shall use reasonable efforts to terminate such impermissible use. Licensee will fully cooperate with Licensor so as to enable Licensor to enforce its proprietary and property rights in the Software. Licensee agrees that, subject to Licensee's reasonable security procedures, Licensor shall have immediate access to the Software at all times and that Licensor may take immediate possession thereof upon termination or expiration of the Agreement or this Schedule. Licensee's obligations under this paragraph shall survive any termination of this Schedule or the Agreement.

**5. UPDATES AND UPGRADES:** During the warranty period or under a separate service or maintenance contract, Updates and/or Upgrades of the Software licensed under this Schedule may be made available, at Licensor's option, to Licensee. Licensor retains the sole right to determine whether a revision to the Software constitutes an Update or an Upgrade. Software Updates will be provided at no charge to Licensee. Software Upgrades that provide new features or capabilities or that require hardware changes will be offered to Licensee at fees established by Licensor. In addition, some Upgrades may require training, consulting, project management and/or technical service support by Licensor's personnel all of which will be offered at Licensor's then prevailing rates. Licensor retains the sole right to determine whether an Upgrade requires such training.

**6. DELIVERY, RISK OF LOSS AND TITLE:** Notwithstanding any contrary provisions of the Agreement, the Software and Documentation licensed hereunder shall be delivered on or about the delivery date stated in the Agreement unless a separate delivery date is agreed upon. If Software or Documentation licensed hereunder is lost or damaged during shipment from Licensor, Licensor will replace it at no charge to Licensee. If any Software or Documentation supplied by Licensor and licensed hereunder is lost or damaged while in the possession of Licensee, Licensor will replace it at Licensor's then current applicable charges, if any, for materials, processing and distribution. Notwithstanding anything to the contrary in the Agreement, the Software and Documentation, in any form, and all copies made by Licensee, including partial copies, and all computer media provided by Licensor are and remain the property of Licensor or its supplier. Licensee has no right, title or interest in the Software, the Documentation, or any computer media provided by Licensor, or copies thereof, except as stated herein, and ownership of any such Software, Documentation and computer media shall at all times remain with Licensor or its suppliers.

**7. LICENSE TRANSFER:** The Software and Documentation, and the license hereunder, may not be sublicensed, transferred or assigned by Licensee, whether by merger, divestiture, acquisition, operation of law or otherwise, except with the prior written consent of Licensor.

**8. WARRANTIES:** Licensor warrants that for the Software warranty period set forth in the Agreement (or if not set forth in the Agreement, then set forth herein), the Software shall conform in all material respects to Licensor's published specifications as contained in the applicable supporting Documentation, but only when operated in accordance with the Documentation and on the platform (hardware and software) identified in the Documentation. In particular, said Software warranty shall be in effect only when used with the software, including, but not limited to, the operating system and the database management system (if any) commercially available on the effective date of the license. To maintain said Software warranty, Licensee must obtain the prior written consent of Licensor prior to the Licensee installing any modifications to said software, including, but not limited to, said operating system software and said database management system software. Documentation may be updated by Licensor from time to time and such updates may constitute a change in specification. Licensee acknowledges that the Software is of such complexity that it may have inherent or latent defects. As Licensee's sole remedy under the warranty, Licensor will provide services, during the warranty period, to correct documented Software errors which Licensor's analysis indicates are caused by a defect in the unmodified version of the Software as provided by Licensor. Licensor does not warrant that the Software will meet Licensee's requirements, or that it will operate in combinations which may be selected for use by Licensee, or that the operation of the Software will be uninterrupted or error free. Licensee is responsible for determining the appropriate use of and establishing the limitations of the Software and its associated Documentation as well as the results obtained by use thereof.

**LICENSOR MAKES NO WARRANTY WITH RESPECT TO THE SOFTWARE AND DOCUMENTATION OTHER THAN THOSE EXPRESSLY SET FORTH IN THIS SECTION. THE WARRANTY HEREIN IS IN LIEU OF ALL OTHER WARRANTIES, EXPRESS OR IMPLIED, INCLUDING BUT NOT LIMITED TO ANY EXPRESS OR IMPLIED WARRANTIES OF MERCHANTABILITY, OR FITNESS FOR A PARTICULAR PURPOSE, OR OF NON-INFRINGEMENT, ALL OF WHICH ARE HEREBY DISCLAIMED, AND CONSTITUTES THE ONLY WARRANTY MADE WITH RESPECT TO THE SOFTWARE AND DOCUMENTATION.**

**9. LIMITATION OF LIABILITY: LICENSOR'S CUMULATIVE LIABILITY FOR ANY LOSS OR DAMAGE RESULTING FROM ANY CLAIM RELATED TO THE SOFTWARE OR DOCUMENTATION SHALL NOT EXCEED THE FEE PAID BY LICENSEE FOR THE SOFTWARE THAT IS CLAIMED TO HAVE CAUSED THE HARM OR THAT IS THE SUBJECT MATTER, OR IS DIRECTLY RELATED TO, THE RELEVANT CAUSE OF ACTION. THIS LIMITATION SHALL APPLY REGARDLESS OF THE FORM OF ACTION, WHETHER IN TORT, CONTRACT OR NEGLIGENCE. IN NO EVENT WILL LICENSOR BE LIABLE FOR ANY SPECIAL, PUNITIVE, INCIDENTAL OR CONSEQUENTIAL DAMAGES, OR FOR ANY INFORMATION, DATA OR COMMERCIAL ERRORS OR LOSSES FROM ANY CAUSE, WHETHER OR NOT LICENSOR HAS RECEIVED NOTICE OF THE POSSIBILITY OR CERTAINTY OF SUCH DAMAGES OR LOSSES.**

**10. LICENSE TERM AND TERMINATION:** The license for the Software and Documentation is effective on the shipment date of the Software and Documentation (F.O.B. shipping point) and continues until Licensee's possession of the Software and all copies ceases or until otherwise terminated as provided herein. Licensee may terminate the license for the Software and Documentation at any time after discontinuance of use of the Software and Documentation and all copies, upon written notice to Licensor. If Licensee (i) fails to comply with

its obligations herein and does not cure such failure within ten (10) days after receipt of notice from Licensor, or (ii) attempts to assign the Agreement or this Schedule or any rights or obligations hereunder without Licensor's prior written consent, then Licensor may terminate the license hereunder and require the immediate discontinuance of all use of the Software and Documentation and all copies thereof in any form, including modified versions and updated works. Within five (5) days after the termination of the license, Licensee shall, at Licensor's option either: (i) return to Licensor the Software and Documentation, and all copies, in any form, including modified versions, along with any computer media provided by Licensor; or (ii) destroy the Software and Documentation, and all copies, in any form, including modified versions, and certify such return or destruction in writing to Licensor.

**11. AUDIT:** Not more than once each year, Licensor may inspect Licensee's relevant records, during regular business hours, to determine if Licensee's use of the Software or Documentation is in accordance with the licenses granted herein. All expenses of such inspection shall be borne by Licensor, except that, if said audit shows unauthorized use by Licensee, then Licensee shall bear the costs of said audit.

## **12. MISCELLANEOUS**

12.1 Because the unauthorized use of the Software and/or Documentation may leave Licensor without an adequate remedy at law, Licensee agrees that injunctive or other equitable relief will be appropriate to restrain such use, threatened or actual. Licensee further agrees that to the extent applicable, (i) any of Licensor's suppliers of Software and/or Documentation is a direct and intended beneficiary of this Schedule and may enforce it directly against Licensee with respect to the Software and/or Documentation provided by such supplier, and that (ii) **NO SUPPLIER OF LICENSOR SHALL BE LIABLE FOR ANY GENERAL, SPECIAL, DIRECT, INDIRECT, CONSEQUENTIAL, INCIDENTAL OR OTHER DAMAGES ARISING OUT OF ANY SUBLICENSE OF THE SOFTWARE AND/OR DOCUMENTATION. THIS LIMITATION ON LIABILITY SHALL APPLY EVEN IF ANY REMEDY FAILS OF ITS ESSENTIAL PURPOSE.**

12.2. The Software may contain support for programs written in Java. Java technology is not fault tolerant and is not designed, manufactured, or intended for use or resale as online control equipment in hazardous environments requiring fail-safe performance, such as in the operation of nuclear facilities, aircraft navigation or communication systems, air traffic control, direct life support machines, or weapons systems, in which the failure of Java technology could lead directly to death, personal injury, or severe physical or environmental damage. Sun Microsystems, Inc. has contractually obligated Licensor's supplier to make this disclaimer.

12.3 Licensor, its supplier(s), or their respective affiliates may provide or make available to Licensee updates, supplements, add-on components, or Internet-based services components of the Software after Licensee obtains its initial copy of the Software ("Supplemental Components").

- If Licensor provides or makes available Supplemental Components to Licensee, and no other end-user software licensing agreement terms are provided along with the Supplemental Components, then the terms of this Software License Schedule shall apply.
- If a supplier of Licensor or affiliates of such a supplier makes Supplemental Components available to Licensee, and no other end-user software licensing agreement terms are provided, then the terms of this Schedule shall apply, except that the supplier or affiliate entity providing the Supplemental Component(s) shall be the licensor of the Supplemental Component(s).

Licensor, its supplier(s), and their respective affiliates reserve the right to (i) discontinue and/or (ii) modify the delivery and/or security methods or codes at any time of, any Internet-based services provided to Licensee or made available to Licensee through the use of the Software.

**12.4 The Software and Documentation supplied by Licensor's suppliers are provided by such suppliers "AS IS" and with all faults. SUCH SUPPLIERS DO NOT BEAR ANY OF THE RISK AS TO SATISFACTORY QUALITY, PERFORMANCE, ACCURACY, OR EFFORT (INCLUDING LACK OF NEGLIGENCE) WITH RESPECT TO SUCH SOFTWARE AND DOCUMENTATION. THERE IS NO WARRANTY BY SUCH SUPPLIERS AGAINST INTERFERENCE WITH LICENSEE'S ENJOYMENT OF THE SOFTWARE OR AGAINST INFRINGEMENT. IF LICENSEE HAS RECEIVED ANY WARRANTIES REGARDING THE SOFTWARE, THOSE WARRANTIES DO NOT ORIGINATE FROM, AND ARE NOT BINDING ON, LICENSOR'S SUPPLIERS.**

12.5 Licensee acknowledges that portions of the Software are of U.S. origin. Licensee agrees to comply with all applicable international and national laws that apply to the Software, including the U.S. Export Administration Regulations, as well as applicable end-user, end-use and destination restrictions issued by U.S. and other governments.

12.6 If Licensee is a unit or agency of the U.S. Government, the Software and Documentation are provided with RESTRICTED RIGHTS. Use, duplication and disclosure by the U.S. Government is subject to restrictions as set forth in Federal Acquisition Regulations (FAR 52.227-19(c)(2) or DFARS 252.227-7013(c)(1)(ii), as applicable) or the equivalent or successor provisions of other applicable regulations. Contractor/manufacturer is Draeger Medical, Inc., Telford, PA.
